

CHILEAN HELI SKIING

Nestled in the breathtaking Chilean Central Andes, we offer an unrivaled heli-skiing experience, accessing diverse landscapes, from majestic glaciated Andean peaks to thrilling steep ridges and gullies.

In Chile, we average only one down day per week, with beautiful sunny days in between. With the Pacific Ocean 160km to the west, the high altitude of the Andes provides the perfect combination of champagne powder in a maritime snowpack!
